PRINCIPAL'S MESSAGE

1973 marks the 58th Anniversary of Willard Junior High School. It is the first Junior High School in Berkeley and the first of its kind in the United States. This places Willard in a unique position so far as the history of school organization is concerned.

This has been another good year for students, staff and the community. It is the year in which we made a concerted effort to develop an operational model to include students, parents and professional staff in the process of collaborative decision making and conflict resolution through our Organizational Development Project. This is not intended to suggest that we have not had our share of difficulties and challenges. We must keep in mind that the freedom to participate also suggests a form of responsible behavior if meaningful change is to occur which is beneficial to all.

My continuous reminder to each of you is that we will receive no more out of our school experience that we are willing to invest in that experience. Success depends largely upon how seriously one pursues his responsibility and how determined he/she is to succeed.

Best wishes to each of you for a most successful and happy future.

Most cordially,

Levi M. Poe, Principal
